

Population Health

Christopher Lillis, MD, Medical Director PRIME and PCMH, UC Davis Health

Carrie Nagy-Marsh, BSN, RN, Senior Director of Population Health, Sutter Physician Services

What is Population Health?

A word cloud centered around the term "Population Health". The words are arranged in a roughly circular pattern around the central text. The words include: "Health Outcomes", "Systems of Care", "Segmentation", "Targeted Care", "Community Health", "Risk Stratification", and "Population Health". The words are in various colors: cyan, green, blue, red, orange, and purple. The central text "Population Health" is the largest and in orange.

Health Outcomes Systems of Care
Segmentation Targeted Care Community Health
Population Health
Health Outcomes Systems of Care Segmentation
Targeted Care Community Health Risk Stratification
Risk Stratification Population Health

Population Health

“The health outcomes of a group of individuals, including the distribution of health outcomes within the group”

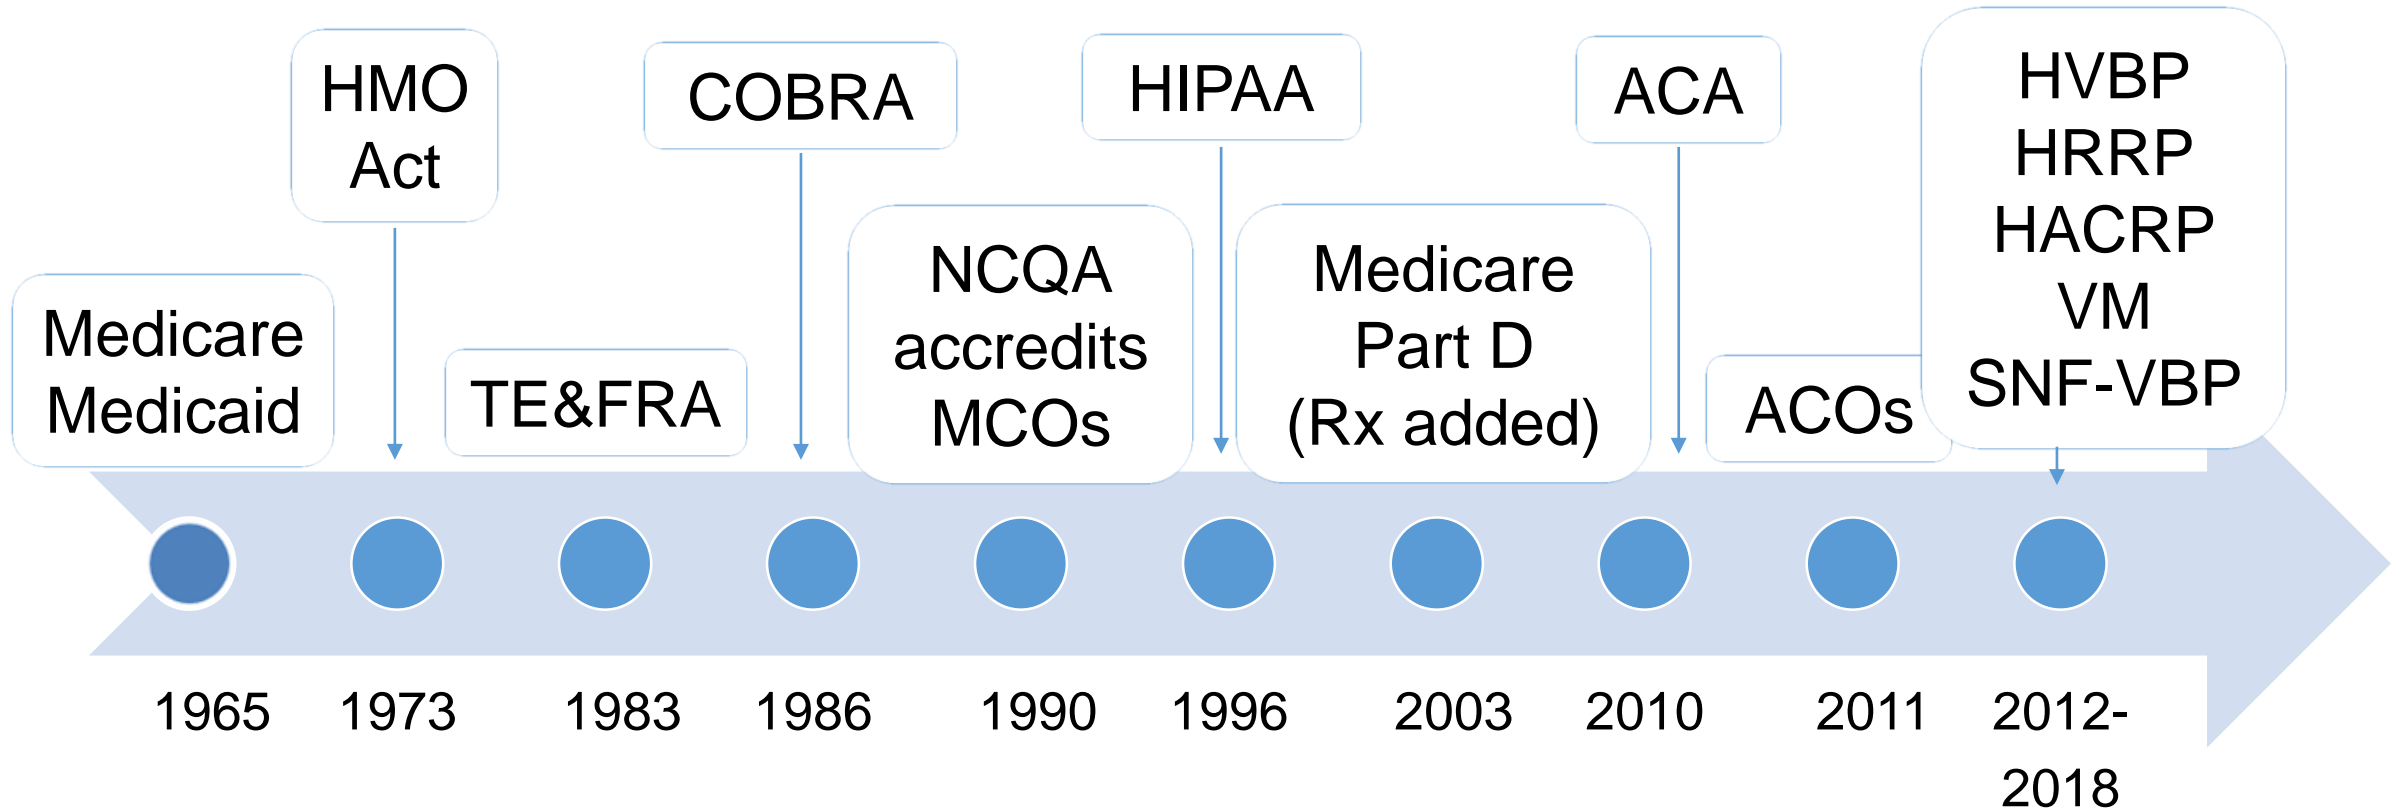

Population Health Services

Aims to enhance the well-being and improve the health outcomes of the communities we serve. This is accomplished by proactively managing the health risk of individuals within a population. By supporting coordinated, standard care in a systematic, cost-effective manner, our team connects patients with the appropriate healthcare interventions needed at the right place, right time, and across the care continuum.

Healthcare Reform Timeline

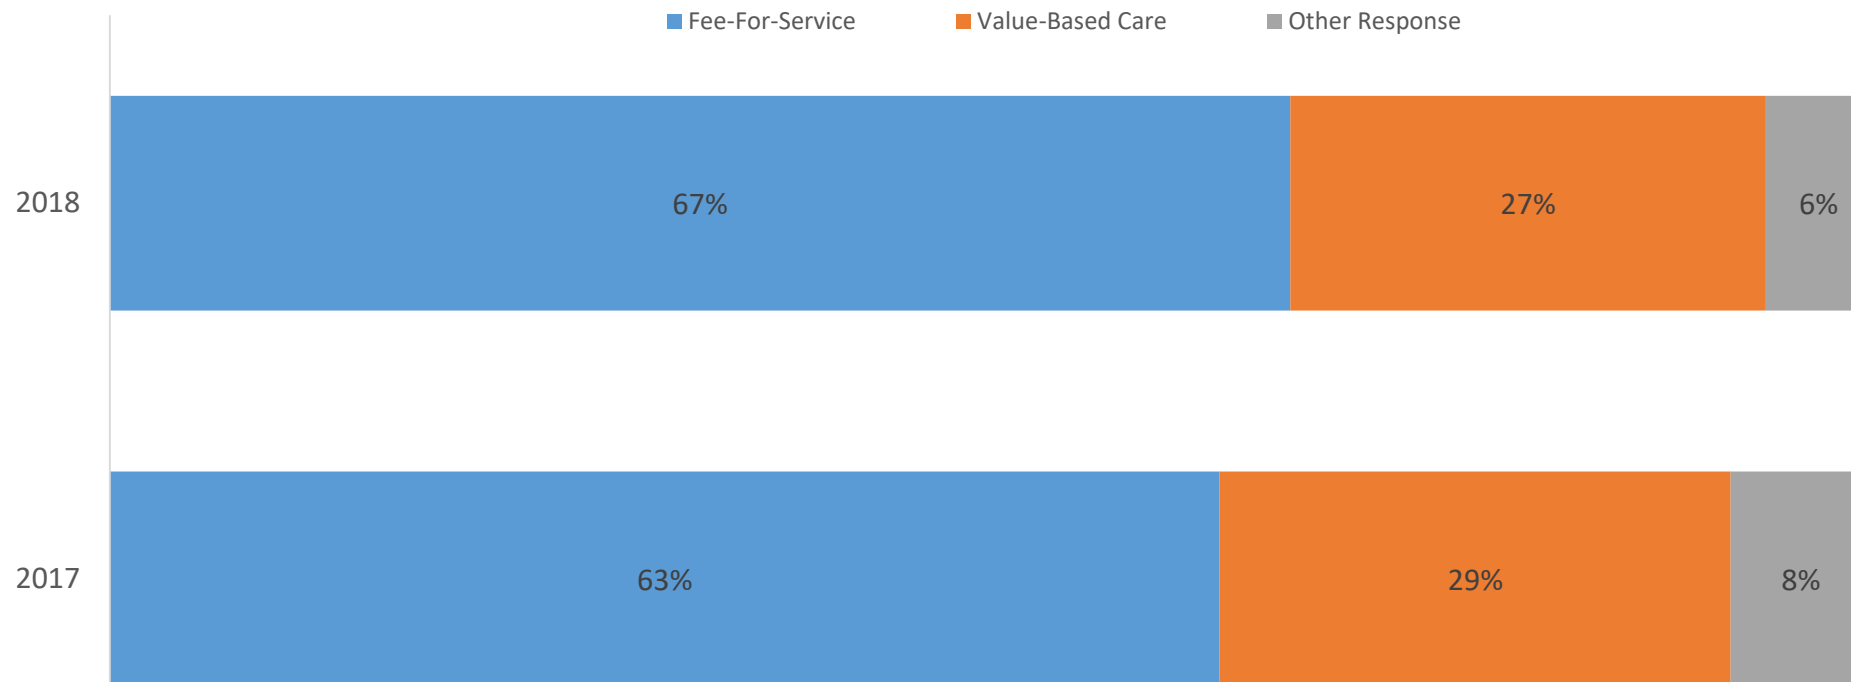

- TE&FRA:** Tax Equity and Fiscal Responsibility Act
- HAC:** Hospital-Acquired Condition Reduction Program
- HRRP:** Hospital Readmissions Reduction Program
- HVBP:** Hospital Value-Based Purchasing Program
- SNF-VBP:** Skilled Nursing Facility Value-Based Purchasing Program
- VM:** Value Modifier or Physician Value-Based Modifier

Progress Toward Value-Based Care

Survey of Health Plan Executives and Physicians

Question: Does the U.S. have a Fee-for-Service or Value-Based Care health system?

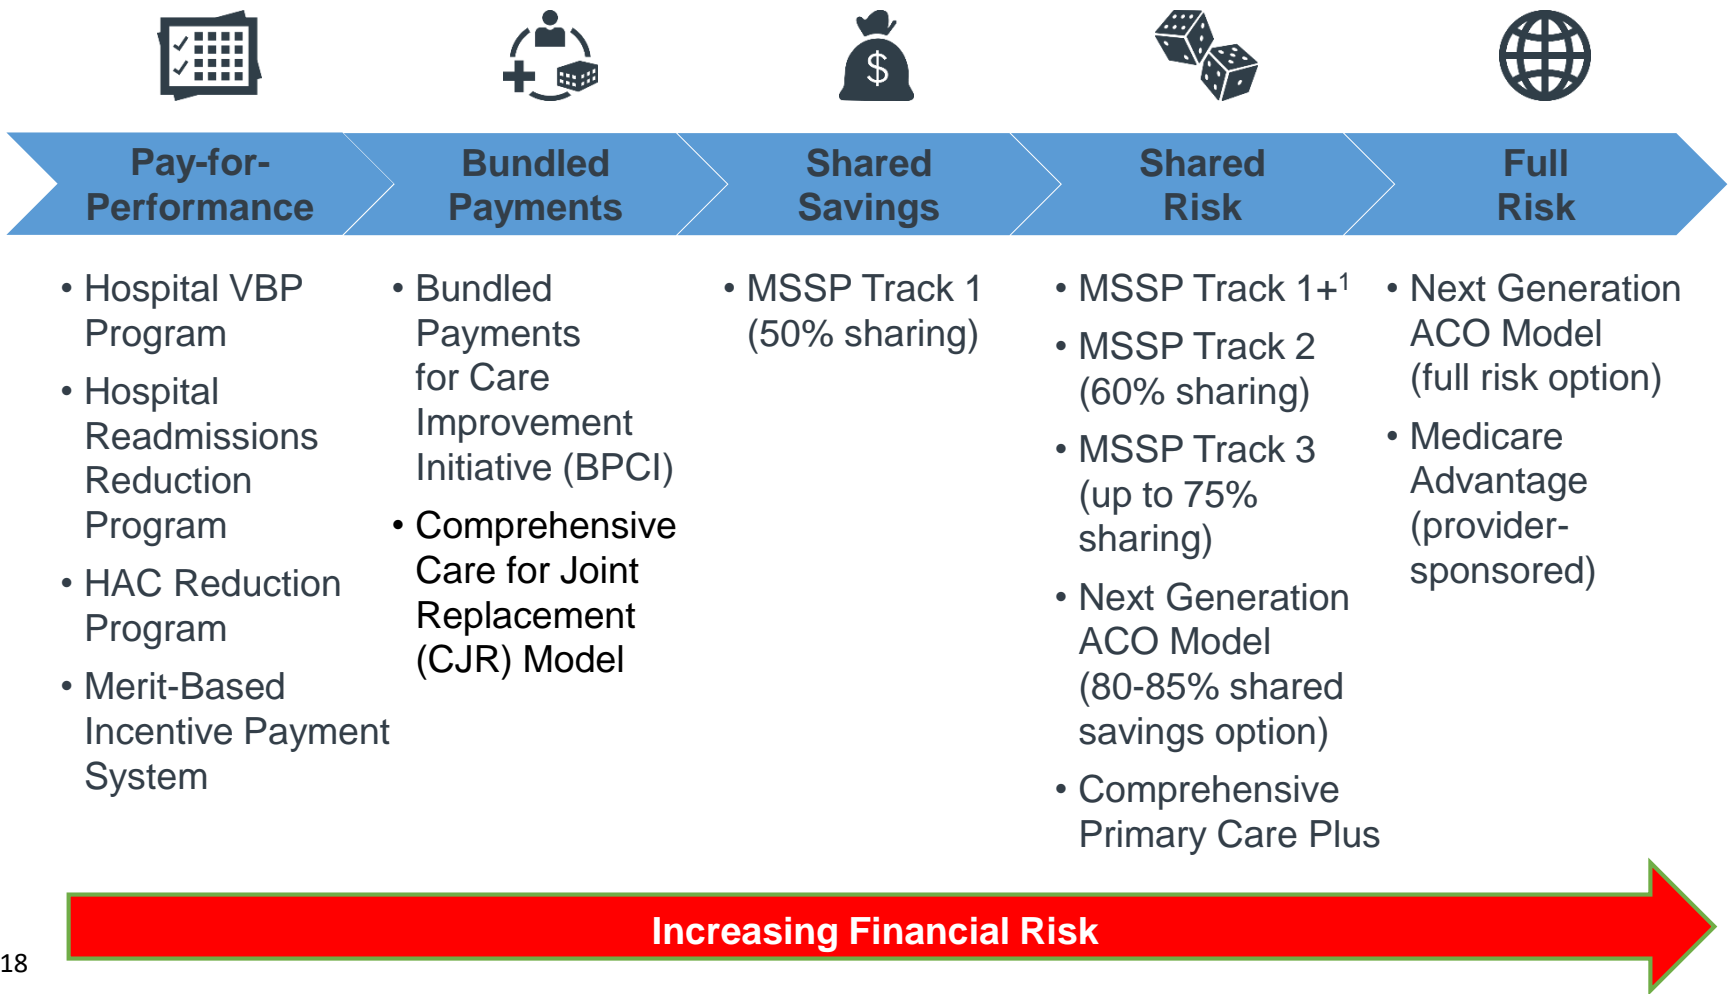

➤ *Little progress has been made toward value-based in the last year.*

Source: Quest Diagnostic [Survey](#), July 2018.

Annual survey conducted by Regina Corso Consulting for Quest Diagnostics of physicians affiliated with health systems and health plan executives (451 respondents).
